The Booklovers'
Blotter Calendar
for 1909

The Canterbury

There are twelve
blotters with the
following quotations in
the given order, one on
each blotter.

MEMORANDA

"What are my books? My
friends, my loves, my church,
my tavern and my only
wealth; my garden, yea,
my flowers, my bees, my
sweets; my only doctors -
and my only health -"

Richard Le Gallienne.

When we gloriously forget
ourselves and plunge soul-
forward, headlong into a
book's profound,
unpassioned for its beauty
and salt of truth,
'tis then we get the
right good from a book.

Elizabeth Browning.

MEMORANDA

Every book is in an intimate sense, a circular letter to the friends of him who writes it.

They alone take his meaning; they find private messages, assurances of love, and expressions of gratitude dropped in them in every corner. The public is but a generous patron who defrays the postage.

Robert Louis Stevenson

There is no frigate like a book / to take us lands away / nor any courser like a page / of prancing poetry. / This traverse may the poorest take / without oppress of toll. / How frugal is the chariot / that bears a human soul. /

Emily Dickinson.

MEMORANDA

When I consider what some books
have done for the world, and
what they are doing, how they
keep up our hope, awaken
new courage and faith,
soothe pain, give an ideal life
to those whose hours are cold
and hard, bind together distant ages
and foreign lands, create new worlds
of beauty, bring down truth from heaven;
I give eternal blessings for this gift,
and thank God for books.

James Freeman Clarke.

When you have read, you carry away
with you a memory of the man him-
self; it is as though you heard
touched a loyal hand, looked into
brave eyes, and made a noble
friend. There is another bond on you there-
fore, binding you to life and to the
love of virtue.

Robert Louis Stevenson.

MEMORANDA

So, when my nurse
comes in for me,
Home I return across
The sea
And go to bed
with backward looks
at my dear land
of story-books.

Robert Louis Stevenson-

-9/-

A good book, whether a novel
or not, is one that leaves you
farther on than when you
took it up - 9/-, when you
drop it, it drops you down in
the same old spot with no
fine outlook, ^{no cleared vision,} no stimulated
desires for that which is better
and higher. it is in no sense
a good book.

Anna Barnes.

- A Warning -
MEMORANDA

I have a notion the
books on the shelves are
just as much persons
as we are ourselves.
And when you are older
you'll find this is
true, then be careful,
my friend, and make
books like you.

Robert Burgess.

O for a book and a shadie
nooke, eyther in a soore or
out; with the greene
leaves whispiring overhede,
or the streete cries all
about. (where I maie read all
at my ease, both of the newe and
olde;) For a gollie gode Booke
whereon to looke is better to
me than Golde.

Olde Rime.

Nothing More -

MEMORANDA

Not as ours the books of old -
Things that steam can stamp
and fold; - Not as ours the
books of yore - Rows of type
and nothing more - Then a
book was still a Book, -
Where a wistful man might
look, - Finding something
through the whole, Beating -
like a human soul.

- Custer Dobson -

Something Still -

In that growth of day by day,
When to labor was to pray,
Surely something vital passed
To the patient page at last;
Something that one still perceives
Vaguely present in the leaves;
Something from the worker lent;
Something mute - but eloquent,
Custer Dobson.
